

Energy-saving two-way and three-way electric valves (three-wire type).

**Next-generation energy-saving products.
Low power consumption, only powered
when changing valve positions.**

- Operating power supply : 220V AC , 50Hz
- Ambient temperature : 0~65°C max
- Power consumption : 4AV
(when valve position changes)
- Fluid temperature : 1~95°C
- Time (standard value) : Valve opening : 7s 50Hz
- Closing pressure difference : 400KPa
- Pressure ratings : Static pressure 2067KPa;
surge pressure 10MPa.

Feature of product

1. Dual spring design, never fractures
2. Can start at low voltage, special mechanism
adopts ultra-durable American UL, CSA-rated
long-life motors (MAMS).
3. Aluminum alloy motor chamber, all-metal
fireproof (non-plastic).
4. Large ball chamber opening/closing stroke,
minimizing water hammer noise.
5. Exclusive cold break mechanism.

Two-way valve	
3/4"	TC2P-01
1"	TC2P-02
Three-way valve	
3/4"	TC3P-01
1"	TC3P-02

World-renowned brands/various types of two-way and three-way valve motors.

<Taiwan sole distributor>

OEM wholesale, retail, maintenance, replacement, and new installation welcome.
